IMMIGRANT ARRIVALS TO ONTARIO
IMMIGRANT LANDINGS TO CANADA WITH ONTARIO AS THE PROVINCE OF INTENDED DESTINATION

JANUARY 1 TO DECEMBER 31, 1984

INTRODUCTION

The summary and tables presented in this report pertain to the total number of immigrants landing in Canada in the 1984 calendar year for whom Ontario was the province of intended destination.

In this report, changes have been made in the categories shown on several tables to reflect changing immigration trends.

Immigrant Category: The Independent category was expanded to show the new Business Class and the Retired Class as separate categories.

Country of Last Permanent Residence and Country of Birth:

- Poland was separated out from the Other Eastern Europe category and the Federal Republic of Germany from Other Europe.
- Central and South America are each being shown separately rather than as a combined category.
- Lebanon has been separated out from Other Middle East.
- India has been separated out from South Asia.
- China has been separated out from Other Asia.

Mother Tongue:

- Czech and Polish have each been separated out from Eastern European.
- Farsi has been separated out from Other Middle Eastern.
- Tamil has been separated out from Other South Asian.
- Tagalog has been separated out from and Thai combined with Other South East Asian.

As in the 1983 report, a summary of the definitions used by Employment and Immigration Canada for the various immigrant categories is appended at the back of this report. This has been included in response to numerous queries.

SUMMARY

The total number of immigrant landings to Canada with Ontario as the province of intended destination in 1984 was reported by Employment and Immigration Canada to be 41,527, an increase of 1,481 over the 1983 total of 40,036. This is still considerably lower than the 1980 total of 61,950.

Community of Destination

Figures are shown for the same 22 Ontario communities as in the 1983 report; however, Employment and Immigration Canada reduced the number of geographic codes for a short time during 1984 and, consequently, some of the destination figures must be treated as approximations. In fact, some communities are shown as having received no immigrants in 1984, a reflection of the absorption of some figures into larger geographic areas.

The distribution for communities of intended destination shows 65 percent of Ontario immigrants planning to settle in Metropolitan Toronto. Actually for 1984, the Metro Toronto figures include most of those for Brampton and Mississauga. The 65 percent figure suggests an increase of 3 percent in immigrant settlement in the Metropolitan Toronto-Peel Region area. Otherwise, the geographic distribution of immigrants appear quite similar to previous years with Ottawa attracting 7 percent, followed by Hamilton (4 percent), Kitchener-Waterloo, London and Windsor (2 to 3 percent each) and St. Catharines (1 percent).

Immigrant Category (Table 1)

The immigrant categories are determined by the Federal Government. The 1984 province-wide distribution for the various categories is shown below:

Immigrants Destined for Ontario, 1984

Immigrant Category	Number	Percent
Family Class	21,074	50.8
Assisted Relatives	3,709	8.9
Refugees & Designated Classes	6,792	16.4
Independents	5,955	14.3
Business Class	2,981	7.2
Retired Class	1,016	2.5
Total	41,527	160

Family class immigration declined somewhat in 1984 (to 51 percent compared to 57 percent in 1983), while the assisted relatives and refugees categories showed slight increases. The independents class appears to have declined to 14 from 22 percent the previous year; however, the removal from this category of the business and retired classes (together totalling 10 percent) indicates a slight increase in 1984.

Approximately seventy-one percent of the 1984 family class immigrants, 65 percent of assisted relatives, 50 percent of refugees, 65 percent of independents, 68 percent of the business class and 60 percent of the retired intended to settle in Metropolitan Toronto or the greater Toronto area. Comparisons of the immigrant category distributions by community are difficult to make because of the changes in the use of geographic codes in 1984, noted in the Introduction.

Country of Last Permanent Residence (Table 2)

United Kingdom immigration continued to decline proportionately to 8 percent, only 1 percentage point lower than in 1983, but considerable below the 1982 and 1981 levels. Other European immigration continued to decline slightly. Asian immigration, on the other hand, rose to 39 percent, the highest since the 1980 peak of 41 percent. Immigration from the Caribbean and Guyana declined slightly in proportion as did that from the United States while immigration from Central and South America continued its gradual increase.

The ten leading source countries or areas for 1984 were the Caribbean and Guyana, Vietnam, Hong Kong, South Asia, the United States, the United Kingdom, Poland, the Phillipines, Central America and Eastern Europe (excluding Poland).

The following table sets out the percentage distribution of immigrants from source areas for 1980, 1981, 1982, 1983 and 1984:

Immigrants to Ontario from Areas of Last Permanent Residence

Percentages

Source Area	1980	1981	1982	1983	1984
United Kingdom	15.0	18.0	15.9	7.7	7.2
Other Europe	17.3	20.5	24.6	22.0	18.5
Caribbean and Guyana	10.0	10.9	12.4	13.6	11.4
Central and South America (excluding Guyana)	2.8	3.4	3.8	5.7	6.3
United States of America	6.2	7.7	7.3	8.4	7.7
Asia (excluding Middle East)	41.1	29.5	27.5	34.0	39.2
Middle East (including Israel)	3.5	4.3	4.2	3.7	4.8
All Other	4.2	4.8	4.4	4.9	5.0
Total	100	100	100	100	100

Country of Birth (Table 3)

The proportions of immigrants born in specific countries or within the larger areas shown are again very similar to those for country of last permanent residence. The figures do indicate small numbers of immigrants coming to Ontario from the United Kingdom, the United States, Vietnam, and Hong Kong who were born elsewhere, and again there was a slightly higher proportion of immigrants born in Eastern Europe who immigrated from some other area. The most notable difference was with respect to immigration from Hong Kong where the percentage was 9 percent for Country of Last Permanent Residence compared to 6 percent for Country of Birth. Overall, however, the percentage differences were slight.

Age and Sex (Tables 4 and 5)

The age distribution of 1984 immigrants varied somewhat from the previous year. The most notable change was an 11 percent increase in the age 22-24 category. This was accompanied by declines in all other age categories from age 15 up, including the seniors category (age 65 and over) which declined by 3 percent. Sixty-eight percent of the 1984 immigrants were over 21, leaving 32 percent who were age 21 or less. The percentage of those under 15 increased slightly to 17 percent.

Female immigrants outnumbered males in 1984 to a much greater extent (3,983) compared to 3,700 in 1983 and only 1,035 in 1982, 1,306 in 1981 and 510 in 1980. As a result, the percentage gap between males and females widened overall to 10 percent, and was again most notable in the 45 to 64 age category where the difference was approximately 60 percent (female) to 40 percent (male). Females also out-proportioned males in other adult categories (by 11 percent for the 19 to 21 age group and 9 percent for those between 22 and 44). The percentage difference for seniors (age 65 and over) remained relatively constant with 16 percent more females. Male immigrants outnumbered females by small percentages in all age categories below 19, except for those under 5 where females led males by 4 percentage points.

Years of Schooling (Tables 6 and 7)

The province-wide distribution for years of schooling of 1984 immigrants is summarized below:

Years of Schooling, Ontario Immigrants, 1984

Years of Schooling	All Immigrants		Immigrants Aged 15 and Over Intending to Enter the Work Force	
	Number	Percent	Number	Percent
Under 5	8,985	21.6	3,597	10.5
5 to 8	8,202	19.8	6,565	19.1
9 to 12	13,927	33.5	13,806	40.2
13 or more	10,349	24.9	10,337	30.1
Not accounted for	64	0.2	60	0.2
Total	41,527	100	34,365	100

As in 1983, the largest proportion of immigrants, a third, had from 9 to 12 years of schooling. There was virtually no change in the proportions in the other educational categories as well; the percentage of those with 13 or more years of schooling remained at 25 percent, and the proportion of those with 8 years or less was 41 percent, just slightly above the 1983 figure.

There was virtually no change, either, in the educational levels of those 1984 immigrants intending to enter the work force: again, 40 percent had 9 to 12 years of schooling while 30 percent had 13 or more. Nineteen percent had from 5 to 8 years, leaving 11 percent with less than 5 years.

Work Force Participation and Intended Occupation (Tables 8 and 9)

Seventy-three percent of the 1984 immigrants 15 years of age and over intended to enter the work force, a slight increase from the 72 percent in 1983. The remainder included students, spouses and others.

The proportion of unidentified occupations rose slightly to 47 percent of the identified occupations; 11 percent of 1984 immigrants were headed for professional or technical occupations and 3 percent for managerial or administrative positions. Other predominant occupational areas were manufacturing, mechanical and operating (13 percent); service (11 percent); and clerical (6 percent).

Mother Tongue (Table 10)

Seventy-four percent of 1984 immigrants to Ontario reported a non-English mother tongue, an increase over the 71 percent in 1983. The percentage of immigrants with English mother tongue continued to decline in 1983 to 26 percent compared to 29 percent in 1983 and 35 percent in 1982, while the total Asian figure rose to 41 percent (35 in 1983). English was followed by Cantonese (16 percent in 1984, compared to 2 percent in 1983). South East Asian mother tongues were characteristic of 12 percent of 1984 immigrants, up 4 percent over 1983, while South Asian languages declined slightly, to 9 percent. Eastern European languages declined slightly. Spanish was the mother tongue of 6 percent of Ontario's 1984 immigrants. A summary table of the 1984 mother tongue distribution for Ontario is set out below:

Mother Tongue	Number	Percent
English	10,710	26.0
French	258	0.6
Other European	10,471	25.2
Asian	17,045	41.0
Other	3,043	7.3
Total	41,527	100

Official Language Ability (Table 11)

The proportion of immigrants without ability in either English or French increased to 47 percent in 1984 compared to 44 percent in 1983 and 39 percent in 1982, while the proportion with English language ability only declined to 56 percent. Three percent knew either French only or both English and French.

APPENDIX

IMMIGRANT CATEGORY - DEFINITIONS*

Canada's Immigration Act sets forth three basic classes of admissible immigrants: the family class, Convention refugees, and independent and other immigrants (including assisted relatives).

FAMILY CLASS

This class consists of certain close relatives sponsored by a Canadian citizen or permanent resident at least 18 years of age and residing in Canada. The Act specifies eight categories of relatives eligible for admission under the family class. Individuals in the family class will not be assessed under the point system, but must meet specified standards. The sponsoring relative in Canada is required to sign a statement promising to provide for the lodging, care and maintenance of the application and accompanying dependants, for a period of up to ten years.

CONVENTION REFUGEES

The refugee class is based on the definition from the United Nations Convention and Protocol Relating to the Status of Refugees. Refugees seeking resettlement in Canada are assessed against factors relating to their adaptability to Canadian life and on the amount of settlement assistance available to them in Canada, or are admitted on humanitarian grounds in times of crisis.

INDEPENDENT AND OTHER IMMIGRANTS

This class includes assisted relatives, entrepreneurs and self-employed (now included in the Business Class), retired persons (shown separately) and others who apply to immigrate on their own initiative at Canadian government offices abroad. Except for retirees, persons in this class are assessed and selected according to the point system. (See below for definitions.)

Assisted Relatives

These are people, other than members of the family class, who have kin in Canada willing to help them get established here. The Immigration Act specifies the categories of relatives eligible to apply under this category. The point system applies.

Business Class

This class includes entrepreneurs and self-employed immigrants. The Immigration Regulations 1978 - Amendment October 27, 1983 redefined "entrepreneur" and "self-employed" as follows:

Entrepreneur

An immigrant who intends and has the ability to establish or to purchase a substantial interest in the ownership of a business or commercial venture in Canada whereby employment opportunities will be created or maintained for more than one Canadian citizen or permanent resident. (S)he will also participate actively in the management of the business. The business or commercial venture must also make a significant economic contribution.

Self-employed

An immigrant who intends and has the ability to establish a business in Canada that will create an employment opportunity for himself/herself and that will make a significant contribution to the economy, or to the cultural and artistic life of Canada.

Retired Person

An immigrant who is at least 55 years of age and does not intend to seek or accept employment in Canada.
